In the case of a journey performed on a return ticket, the first half of which was utilised for a journey commenced before the 1st April 1924, the expenditure incurred shall be deemed to be half the cost of such ticket. If the officer has taken an advance for a passage in respect of which money is drawn under this rule, the sum so drawn shall be applied forthwith to repay the outstanding balance of the advance.

10. Any balance remaining at the credit of any officer after such officer has ceased to be eligible for the benefits of any, conferred on him by these rules, shall lapse to the Madras Pilotage Fund.

In exercise of the powers conferred by section 44-A and clause (a) of sub-section (2) of section 71 of the Madras Hindu Religious Endowments Act, 1926 (Madras Act II of 1927), as amended by the Madras Hindu Religious Endowments (Amendment) Act, 1929 (Madras Act V of 1929), the Governor in Council is hereby pleased to make the following rules :—

Rules.

1. In these rules 'Act' means the Madras Hindu Religious Endowments Act, 1926 (Madras Act II of 1927), as amended by the Madras Hindu Religious Endowments (Amendment) Act, 1929 (Madras Act V of 1929).

2. The quit-rent to be imposed under sub-section (1) of section 44-A of the Act shall be the current assessment on the land—less any quit-rent, jodi or cesses already payable thereon. The quit-rent so imposed shall not be liable to revision.

Explanation.—In the case of proprietary villages the current assessment on similar lands in the neighbouring ryotwari villages shall be taken to be the current assessment on the inam land for enfranchisement.

3. As soon as may be after the publication of these rules, the Collector of the district shall, by a notification in the District Gazette, direct that the trustee of every temple in the district as well as the devadasi concerned shall send to him within such time as may be specified in the notification a statement in the Form annexed to these rules, of the devadasi inams held in connexion with the temple which should be enfranchised under the Act.

4. The Collector shall also make such inquiry as he may think fit to ascertain what inams in the district should be enfranchised under the Act and collect such information relating to the said inams as he may think necessary.

5. (*a*) If the Collector is satisfied that the statement sent by the trustee of any temple or the devadasi is correct and complete, he may proceed to enfranchise the inam on the basis of the particulars contained in such statement.

(*b*) If the Collector considers that the statement sent by the trustee or devadasi is inaccurate or incomplete, or if no statement is received within the time specified in the notification issued under rule 3, the Collector may proceed to enfranchise the inam on the basis of the information collected by him under rule 4.

Provided that in each case falling under the sub clause the Collector shall give notice in writing of the proposed enfranchisement to the trustee and devadasi concerned and shall consider any representations which they may make within the period specified in such notice.

6. When orders have been passed under clause (*a*) of sub-section (1) of section 44-A of the Act for the enfranchisement of an inam any title-deed that may have previously been issued by the Inam Commissioner in respect of the grant shall be deemed to be cancelled and a fresh title-deed shall be issued by him. The enfranchisement shall in each case take effect from the date of the issue of such fresh title-deed by the Inam Commissioner.

In the case of grants not dealt with by the Inam Commissioner, the Collector shall issue an order in each case freeing the grant from the condition of service and fixing the date from which the order shall take effect.

GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Cantonments (House-Accommodation) Act, 1923, for certain purposes, was presented to the Legislative Assembly on the 11th February 1930 :—

We, the undersigned members of the Select Committee to which the Bill further to amend the Cantonments (House-Accommodation)

Act, 1923, for certain purposes, was referred, have considered the Bill, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Clause 3.—We are of opinion that the Officer Commanding the Station should make a regular inquiry before deciding whether he is satisfied as to the circumstances set forth in proposed section 6 (*1*) (*a*) and (*b*), and have made provision to that effect. We wish to express a hope that rules made under the Act will provide that the inquiry shall include a reference in each case to the house-owner.

We have somewhat extended the notice to be given under this section by expressing it to be three *clear* days' notice.

It seems advisable that the power of inspection should only be exercised between sunrise and sunset.

We have supplied an obvious omission by providing for applications in respect of a military mess.

The other changes in this clause are simply of a drafting nature, designed to make the meaning more clear.

Clause 6.—In the interests of house-owners we have considered it advisable to reduce the periods of three months and ten years referred to in proposed clauses (*c*) and (*cc*) of section 10 to one month and three years, respectively.

We have also in proposed clause (*cc*) of section 10 inserted an obviously desirable reference to military messes.

Clause 14.—We have made the purely formal amendment of omitting the word "General".

2. The Bill was published in the *Gazette of India* on the 7th September 1929.

3. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

MINUTE OF DISSENT

Under the Cantonments (House Accommodation) Act, 1923, the Officer Commanding the station may, with the sanction of the Officer Commanding the District, issue a notice in respect of a house, suitable for occupation by a military officer or a military mess, requiring the owner "to execute a lease of the house to the Government for a specified period which shall not be less than five years". No such notice can, however, be issued in respect of a house which is occupied by the owner. The procedure which has to be followed makes it possible for the owner to move into his house when it is vacated by a tenant, before a notice is served on him, and thus render it impossible for Government to appropriate it on a lease. The principal object of the present Bill is to deprive house-owners of the right referred to above which they enjoy at present. Under clause 6 (*c*) of the Bill as amended by the Select Committee a house will not be liable to appropriation only if the owner has been residing in it "continuously during the one month immediately preceding the issue of the notice."

* Subject to a minute of dissent.

This condition will place it within the power of the military authorities to prevent the owner of a house from occupying it in future if he does not live in it already.

Strong reasons must be adduced before we can agree to the above-mentioned provision. It is reasonable on the part of Government to desire that there should be sufficient accommodation for military officers in cantonments but no instance was given to us in the Select Committee of any place where military officers are without accommodation. All that we understood was that in the more important places there was only a small number of houses available for future occupation by military officers. The shortage of accommodation for military officers may therefore be felt in future, but it has as yet brought about no serious situation which must be dealt with immediately in the manner suggested in the Bill. Generally speaking Indian house owners have shown a tendency to occupy their houses in cantonments for two reasons. In some places, for instance on the frontier, there is much greater security in the cantonments than in the Indian part of the town. Again, there is in some places serious congestion in the Indian quarter and at the same time there is no civil station to which Indians, desirous of living in healthier surroundings, can shift. Unless these facts are recognized no equitable solution of the problem, which Government wish to deal with, is possible. If cantonments are extended so as to provide for the construction of bungalows for military officers with private capital, or civil stations are established, there will probably be no need for the legislation brought forward by Government. It is the duty of Government to devise a constructive scheme which will meet the requirements both of the military officers and of Indians and at the same time provide for the needs of Indians who desire to live outside old towns, in greater security and in more sanitary surroundings.

For reasons given above, and particularly because no case was made out in the Select Committee in favour of clause 6 (*c*) of the Bill on the ground that there was shortage of accommodation, we are opposed to its inclusion in the Bill.

L.A. BILL No. 18 OF 1929.

[AS AMENDED BY THE SELECT COMMITTEE.]

[**Words printed in italics indicate the amendments suggested by the Committee.**]

A Bill further to amend the Cantonments (House-Accommodation) Act, 1923, for certain purposes.

WHEREAS it is expedient further to amend the Cantonments (House-Accommodation) Act, 1923, for the purposes hereinafter appearing; It is hereby enacted as follows:— VI of 1923

1. This Act may be called the Cantonments (House-Accommodation Amendment) Act, *1930*. Short title.

2. In section 2 of the Cantonments (House-Accommodation) Act, 1923 (hereinafter referred to as the said Act),— VI of 1923. Amendment of section 2, Act VI of 1923.

(a) clause (*b*) of sub-section (*1*) shall be omitted and clause (*bb*) shall be relettered as clause (*b*);

(*b*) in clause (*a*) of sub-section (*1*), after the words "in a cantonment" the following words shall be added, namely :—

"or, if that officer is the Officer Commanding the District, the military officer who would be in command of those forces in the absence of the Officer Commanding the District"; and

(*c*) in sub-section (*2*), for the words "District Magistrate" the word "Collector" shall be substituted.

Substitution of new section for section 6, Act VI of 1923.

3. For section 6 of the said Act the following section shall be substituted, namely :—

Conditions on which houses may be appropriated.

"6. (*1*) Where—

(*a*) a military officer who is stationed in or has been posted to the cantonment, *or a Provincial of a military unit in the cantonment*, applies in writing to the Officer Commanding the Station stating that he is unable to secure suitable accommodation in the cantonment *for himself or the unit* on reasonable terms by private agreement, and that no suitable house or quarter belonging to Government is available for his occupation *or for the occupation of the unit*, and the Officer Commanding the Station is satisfied *on inquiry* of the truth of the facts so stated ; or

(*b*) the Officer Commanding the Station is satisfied *on inquiry* that there is not in the cantonment a sufficient and assured supply of houses available at reasonable rates of rent by private agreement to meet the requirements of the military officers and military masses whose accommodation in the cantonment is in his opinion necessary or expedient,

the Officer Commanding the Station may, with a view to enforcing the liability under section 5, serve a notice on the owner of any house *which appears to him to be suitable for occupation by a military officer or a military unit, as the case may be, within the* cantonment, or, if *this* Act is in force in part only of the cantonment, *within* that part, requiring the owner to permit the house to be inspected, measured and surveyed by such person and on such date, not being less than three *clear* days from the service of the notice, and at such time *between sunrise and sunset*, as may be specified in the notice.

(*2*) On the date and at the time so specified the owner shall be bound to afford all reasonable facilities to the person specified in the notice for the purpose of the inspection, measurement and survey of the house and, if he refuses or neglects to do so, such person may, subject to any rules made under this Act, enter on the premises and do all such things as may be reasonably necessary for the said purpose."

Amendment of section 7, Act VI of 1923.

4. In section 7 of the said Act,—

The following Report of the Select Committee on the Bill further to amend the Indian Income-tax Act, 1922, for certain purposes, was presented to the Legislative Assembly on the 12th February 1930 :—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Income-tax Act, 1922, for certain purposes, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Papers Nos. I and II.

2. *Clause 3.*—We have accepted this clause, but its examination has brought out the fact that there may be doubt if an order of an Income-tax Officer under section 25A is appealable. It may be held that these orders could be reviewed in an appeal under section 30 against the resulting assessment, but we think it safer to take the opportunity now of securing beyond doubt that an appeal shall lie. We have done this by inserting a new clause 4, which amends section 30 in the sense indicated.

We have re-numbered clauses 4 and 5 accordingly.

Old clause 6.—This clause proposed to give powers to Income-tax Officers to attach and sell debts due to assessees. The Statement of Objects and Reasons mentioned that the intention of Government was to instruct Income-tax Officers not to use these powers in any province where the Collector of Land Revenue himself could exercise them. However, during our discussion doubt was raised whether these powers could be exercised by Collectors of Land Revenue in any province, and we do not feel sure of the precise scope of the proposal contained in the clause. We have accordingly deleted it and recommend that the matter should be further investigated, and brought up again in some future amending Bill, should there appear to be need for it.

Clause 8.—In sub-clause (a) we have added some words to make it clear that the person claiming a refund will have the option of choosing that one of the alternative periods of limitation now provided which better suits him.

In sub clause (b) we have made provision whereby a specially empowered Assistant Commissioner will be able to admit claims for refund after the expiry of the period of limitation. We have done this for considerations of convenience in outlying areas like Sind.

Old clause 11.—This important clause related to restrictions to be imposed upon persons entitled to appear on behalf of others in Income-tax proceedings. Clearly the restrictions proposed went too far, and public opinion, on the whole, is strongly against them. We discussed at length various suggestions to achieve the object in view, namely, to exclude undesirables from practising before Income-tax Officers. We are agreed that some system of control, as by the licensing or registration of Income-tax Agents, is desirable, but we do not feel

that we are in a position to formulate any definite scheme which would be certain to command general acceptance. In these circumstances, even if we could settle on a definite proposal, we should consider that it was necessary for it to be circulated for opinion. We therefore recommend that the various suggestions made in this Committee should be further considered by Government and that definite proposals should be formulated thereon and circulated for opinion before legislation is undertaken on this important subject. Accordingly, we have deleted clause 11 and renumbered the remaining two clauses.

3. The Bill was published in the *Gazette of India* on the 7th September 1929.

4. We think that the Bill has not been so altered as to require republication, and we recommend that it be passed as now amended.

The following Report of the Select Committee on the Bill further to amend the Indian Merchandise Marks Act, 1889, for a certain purpose, was presented to the Legislative Assembly on the 12th February 1936 :—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Merchandise Marks Act, 1889, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report with the Bill as amended by us annexed thereto.

Papers Nos. I—III.

2 We have modified the provisions of the proposed section 12A so as to restrict its operation to goods at the time of importation. We find that a large body of opinion takes the view that it is impracticable in India to enforce a regulation in regard to goods at the time of sale, whether wholesale or retail. It would be impossible to place upon the police or other officers of Government the duty of inspecting goods offered for sale since, apart from other objections, they would not possess the trade knowledge required for the discharge of such a duty, and the employment of a special staff for the purpose would entail heavy expenditure of public money. Manufacturers in India with few exceptions are not well organized and, in view of the geographical extent of the Indian market, we fear it would be impossible for even a well organized manufacturers' association to maintain a staff adequate to secure the enforcement of the regulations In our view these practical difficulties are at present insuperable, and we are agreed that legislation to enforce marking at the time of sale would be largely infructuous

3. We have also made a second change of substance in the Bill. As originally drafted, the regulations would have been applicable to goods produced or manufactured in the Indian States. We consider that no distinction should be drawn between such goods and goods made or produced in British India, and in the Bill as revised by us the regulations will apply only to goods made or produced beyond the limits of India.

4. We consider that a notification issued under sub-section (1) of the proposed section 12A should not come into force unless and until reasonable notice of the new requirement has been given. Sub-section (2) (b) of the said section provides for this and fixes the minimum period of notice at three months.

5. We are agreed that no notification should be issued except on an application made by a person or association substantially interested in the manufacture or production of goods of the same class in British India, and that the issue of the notification should be preceded by such inquiry as the Governor General in Council may deem requisite. We have no doubt that, before a notification is issued, an opportunity should be given to those interested to state publicly any objections they may have to the compulsory marking of a particular class of goods with an indication of origin, but we think that the precise manner of conducting the inquiry should be left to the Government of India to decide according to the circumstances of each case. The inquiry should, in our view, be directed mainly to practical points, such as the effectiveness of the marking to secure the object intended to be obtained, and the practicability of requiring the application of a mark which could not be easily removed after importation.

It should not be necessary, we think, to investigate in detail the extent to which the indigenous industry was prejudiced by the absence of an indication of origin on imported goods, though the question might arise whether the compulsory marking of imported goods was in fact likely to benefit Indian manufacturers. We are further of opinion that no notification should be made except after previous publication. We have provided for these matters in sub-section (3) (a), (b) and (c) of the proposed section 12A.

6. We consider that, subject to security for re-exportation, goods which are not imported for consumption in India and will not therefore be in competition with Indian goods in the Indian market should be exempted from the provisions of the Bill. Sub-section (4) of the proposed section 12A provides for this.

7. We are agreed that the importation of goods into British India which are required to have applied to them an indication of origin, and which do not bear such indication, should be prohibited under section 18 of the Sea Customs Act, 1878. We consider this to be the only effective method by which the requirements of a notification issued under sub-section (1) of proposed section 12A can be enforced. The adoption of this method renders the imposition of any special penalties unnecessary as the requirements of a notification issued under sub-section (1) of the proposed section 12A will be enforced in the same way as the requirements of section 10 of the Indian Merchandise Marks Act, 1889, are now enforced.

XIV of 1889

The following Report of the Select Committee on the Bill further to amend the Indian Railways Act, 1890, for certain purposes, was presented to the Legislative Assembly on the 12th February, 1930.—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Railways Act, 1890, for certain purposes, was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

2. The Bill as introduced contained merely a rule-making power and it was intended that the rules should contain the provisions necessary to give effect to the Washington and the Geneva Conventions in their application to railways in British India. We consider that the Bill should go further than this and should embody the principal relevant provisions of these two Conventions. We have expanded the Bill accordingly. We would emphasise, however, that the draft rules laid before us by the Government contained all the provisions which we have now embodied in the Bill, and we consider, therefore, that we are introducing no new principle into the Bill but are merely expressing in it principles which, according to the original intention, were to have been expressed in statutory rules made under it.

3. We consider it advisable to record some notes on the various provisions of the Bill in order not only to explain their nature but also to show how the Bill now carries out the Washington and the Geneva Conventions.

Clause 2.—Sub-clause (*c*) is necessary as conditions on the different railways vary, and some railways will be in a position to give effect to this Bill earlier than others. It is desirable that the Bill should come into force on each railway as soon as possible and for this reason we have not fixed any one date, which might be too early for some railways or too late for others. We understand that Government has already taken preliminary steps to give effect to the provisions of the Bill in regard to hours of work and periods of rest on all railways in British India, that to a large extent its provisions will be introduced on all railways within a comparatively short period, and that complete effect will be given to all the provisions of the Bill in about two years from the date on which it becomes law.

Clause 3.—Proposed section 71A.—The definition in clause (*a*) excludes the words "essentially intermittent" used in article 6 (*a*) of the Washington Convention.

Proposed section 71C.—Sub-section (*1*) is the substance of Article 10 of the Washington Convention. Sub-section (*2*) fixes a limit

to the hours of work of those railway servants whose work is essentially intermittent. The Convention does not require the imposition of such a limit, but we consider it desirable that it should find a place in the law as a maximum. Sub-section (*3*) is based on Article 3 and clause (*b*) of article 6 of the Washington Convention.

In connection with sub section (*1*) we considered the suggestion whether a forty-eight hour week should not be provided for in the Bill, but we consider that the primary object of this Bill is to enable the Government of India to make good the obligations incurred under the two International Conventions and that it is not desirable to attempt to do more than this at present. The introduction of a forty-eight hour week would necessitate a further prolonged period of preparation, and would also involve very heavy expenditure. For this reason we have not accepted the suggestion. We understand, however, that an investigation has been started by Government, and will be continued, with a view to fixing the hours of work at a lower figure than fifty-six hours a week for those railway servants whose duties are specially arduous and involve continuous concentration.

As regards the proviso to sub-section (*3*), the Bill provides that overtime must be paid only in cases falling under clause (*b*), that is, cases of exceptional pressure of work. The proviso does not cover clause (*a*), which relates to emergencies involving serious interference with the ordinary working of the railway. We considered whether the proviso should not apply also to overtime work in cases falling under clause (*a*), but the Bill, as re-drafted, is in accordance with the Washington Convention, which does not make the payment of overtime obligatory except when the extra hours of duty are due to exceptional pressure of work; and, until the question has been further examined, we do not consider it advisable to impose a statutory obligation to pay overtime in cases falling under clause (*a*). We are informed that the present practice varies on different railways, and we think that Government should investigate the question whether some provision ought not to be made either for the payment of overtime in such cases or for a compensatory period of rest.

Proposed section 71D.—The body of sub-section (*1*) gives effect to Article 2 of the Geneva Convention; and the proviso is based upon Article 4, read with paragraph 2 of Article 1. Sub-sections (*2*) and (*3*) are based on Article 4. The proviso to sub-section (*3*) is based upon Article 5 of the Geneva Convention.

Proposed section 71E. contains a much reduced rule-making power necessary to implement the provisions of the Bill.

Proposed section 71F.—We are of opinion that the investigation recommended by us in connection with the proviso to clause 71C should also cover the question of the payment of overtime or grant of compensatory periods of rest to railway servants who may have to work for extra time in the circumstances contemplated by this section.

Proposed section 71G.—The scheme of this section is that the Governor General in Council should appoint suitable persons, who will be independent of the railway administrations, to make regular inspections of labour conditions on railways in order to furnish Government with reliable and independent evidence of the manner in which the provisions of the law are being carried out.

4. The Bill was published in the Gazette of India on the 7th September, 1929.

5. In view of our remarks in paragraph 2 we do not consider that the Bill has been so altered as to require re-publication, and we recommend that it be passed as now amended.

NOTE.

I think, I owe it to myself that I should state my reasons for signing the Select Committee's Report. The essential features of the rules embodied in this Bill is that, statutory provision is now for the first time being made for (1) limitation of maximum period of employment both for continuous and essentially intermittent workers, (2) the obligation to give both these classes of workers a necessary period of rest at fixed intervals. This provision, it is claimed, carries out the obligations of the Government to give effect to the provisions of the Geneva and Washington Conventions. But it does not come up to the demands put forward by the Railway Workmen's Unions in this respect. I do not think these demands unreasonable in themselves. But I have persuaded myself to agree to the present provision in the Statutory Rules about the periods of employment and rest as only a *first instalment*. The obligation to conform to the provisions of the two conventions cannot prevent Government from reducing the hours of employment, increasing the periods of rest, and reducing the intervals between them, if they mean to do it. Therefore, I do not regard the alleged obligation to conform to the conventions as a valid reason for not complying with the demands of the Railwaymen's Unions. But I take into consideration the assurance given to us on behalf of the Railway Board, that "An investigation has been started by Government and will be continued, with a view to fixing hours of work at a lower figure than 56 hours a week for those Railway servants, whose duties are specially arduous and involve continuous concentration".

I recognise that after all every thing that is due to the workers, in respect of the limitation of employment and the provision for periodical rest, cannot be secured by a rigid or a uniform statutory provision. If, on the one hand, the equities due to the Railway workmen must be taken into consideration, on the other hand, one must also take into consideration, from the tax-payer's point of view, the expenditure likely to be involved at a jump in a sudden compliance with the workmen's full demands. Also on many points arising out of the new scheme, a prolonged investigation, we were told, will have to be made into the working of the administrative machinery so that the intended benefits of the new provisions about the periods of employment and rest may be fully realised by the workers.

* Subject to a note. † Subject to a minute of dissent

This is quite possible, and it is reasonable, to allow the Railway Board some time to make the necessary investigation. But I hope, that there will be on the part of the Railway Board an earnest effort, to make the investigation, to carry out the adjustment, with the sole purpose, as far as possible, of approximating to the Railwaymen's demands, which, as I have already said, in my opinion, are reasonable, and must be granted at not a distant future. From this point of view I specially welcome and appreciate the provision about the appointment of "suitable persons, independent of the Railway administration, to make regular inspections of labour conditions of railways, in order to furnish reliable and independent evidence of the manner, in which the provision of the Law are being carried out". In this respect I suggest two things:

(1) That the reports of these inspectors should be made available to the Members of the Legislature from time to time, in such manner, as may be regarded convenient, and

(2) That due facilities should be given to accredited representatives of the Unions also on their part to watch the administration of the rules.

I am realise that comparatively little can be done in this complicated business, through the letter of the Law or even rules and regulations. Much depends upon practical experience of details, and I hope that though the Railway Board may be kept back by such considerations, from making the full concessions demanded by their employees immediately, still it will at least give no reason for a well-founded apprehension, that it merely wants to save expense at the cost of equities due to the workers.

11th February, 1930. N. C. KELKAR.

MINUTES OF DISSENT.

I sign the Report subject to certain reservations. In the proposed section 71C, sub section (1), I consider that the maximum limit of 48 hours should be fixed in case of all railway servants other than those whose employment is of an essentially intermittent character. In the Washington Conference India was permitted to have a 60-hour week on the ground that an 8-hour day in India would be less productive than an 8-hour day in other industrially advanced countries. Whatever arguments there may or may not be for a 60-hour week in industries which are to face foreign competition, the same do not hold good in case of the Indian railway system, which is practically a monopoly and has not to face competition from anywhere else. With regard to the objection that the adoption of a 48-hour week will involve "very heavy expenditure", no definite estimate has been placed before the Committee to warrant that conclusion, and I consider that the cost of the adoption of a 48 hour week for continuous workers will not be prohibitive.

Section 71C, sub-section (2), should, in my judgment, be so modified as to impose a maximum limit of 60 hours a week in case of intermittent workers.

The proviso to sub-section (1) of section 71D, excluding the railway servants whose work is of an essentially intermittent character from the right to a weekly day of rest, should be deleted. For it is manifestly unfair that railway servants whose maximum hours of work has been fixed at 84 should be denied the right to a weekly rest.

11th February, 1930. ABDUL MATIN CHAUDHURY.

I am of opinion that in clause 71C (1), the word "fortnight" be inserted in place of "sixty" and that in clause 71C (2), the word "sixty" be inserted in place of "eighty-four." If I am not mistaken in the case of the running staff of the Postal Department, sorters whose employment is essentially intermittent, are not employed for more than 36 hours a week and those whose employment is not essentially intermittent, 8 hours a day, which, where Sundays are not allowed, works out to 50 hours a week and where Sundays are allowed, to 48 hours a week. In the Telegraph Department too, the hours of employment are not more than 8 a day with some relaxation on Sundays

2. I am also of opinion that in the proviso to clause 71C (3), for the words "exempted under clause (b)", the words "exempted under clause (a) or clause (b)" be substituted as, I think, so far as the workers are concerned, overtime is due to those exempted under clause (a) as much as to those exempted under clause (b)

Repeal.

11. The Indian Lac Cess Act, 1921, is hereby repealed. XIV of 1921

Dissolution of the Indian Lac Association for Research.

12. Notwithstanding anything contained in the Societies Registration Act, 1860, the Indian Lac Association for Research is hereby dissolved, and all monies and properties vested in it are hereby transferred to the Committee, subject to the payment of any outstanding claims incurred by the said Association under the Indian Lac Cess Act, 1921. XXI of 1860 XIV of 1921

STATEMENT OF OBJECTS AND REASONS.

Under the existing Indian Lac Cess Act, 1921, the proceeds of the lac cess are, after deduction of the expenses of collection, paid to the Lac Association. The control of these funds is vested in a Committee of the Association which has been constituted under the rules of the Association and not by any statutory authority. This Committee is composed of three representatives of Calcutta shippers, two of Indian manufacturers, two of Indian brokers, one of European manufacturers and one of European brokers. The Committee, through its control of the lac cess funds, controls also all expenditure on research which is carried out in the Lac Research Institute at Ranchi.

The Lac Association have represented to the Government of India that the Committee which is located at Calcutta, is not in a position to control effectually or to the best advantage the future conduct of research in the lac industry, having neither the necessary knowledge nor necessary experience. The Committee particularly feels its inability to bring home to the cultivator the results of the research work done at the Institute. The Association have accordingly recommended that the existing Lac Cess Act should be replaced by a fresh measure providing for a continuance of the Lac Cess and constituting a statutory committee on the lines of the Central Cotton Committee, which should take over control of the Research Institute and should administer generally the lac cess funds. The Government of Bihar and Orissa, within whose jurisdiction the Research Institute is located, concur in this recommendation.

The Royal Commission on Agriculture have also in paragraphs 498 and 499 of their report emphasized the importance of bringing together the various interests in the lac industry somewhat on the lines of the Indian Central Cotton Committee, and of including in the body entrusted with the control of the cess funds nominees of the Government of India and of the Government of Bihar and Orissa and an official to represent the interests of cultivators.

The Government of India after giving the matter their careful consideration and after consulting Local Governments have decided to accept the recommendations of the Indian Lac Association and the Government of Bihar and Orissa.

The object of this Bill is to give effect to this decision. It is proposed that the statutory committee to be constituted should include technical experts in the employ of the Governments of India and Bihar and Orissa, as suggested by the Royal Commission on Agriculture and also representatives of manufacturers, shippers and cultivating interests. Opportunity is also taken in accordance with a recommendation of the Government of Bihar and Orissa to enlarge the definition of the objects to which the proceeds of the cess may be applied, so as to include within its scope the investigation of marketing methods and the promotion of sales.

It is also proposed in accordance with a recommendation made by the same Government that the new measure should be of a permanent character subject to a dissolution clause as in clause 7 of the Bill. The rule making powers which it is proposed to take are analogous to those incorporated in the Indian Cotton Cess Act, 1923.

(*f*) provide for the appointment of local accountancy boards at such centres as the Governor General in Council may set up, to advise him and the Indian Accountancy Board on any matter that may be referred to them.

(*2B*) The holder of a certificate granted under this section shall, subject to any conditions or restrictions imposed by the certificate, be entitled to be appointed and act as an auditor of companies throughout British India."

Certificates granted before the commencement of this Act.

3. (*1*) All certificates granted by Local Governments before the commencement of this Act entitling the holders, and all declarations made before the commencement of this Act by the Governor General in Council entitling the members of any specified institution or association, to be appointed and to act as auditors of companies throughout British India shall be deemed to be cancelled on the expiry of one year from the commencement of this Act:

Provided that the Governor General in Council may direct that any such certificate or declaration shall remain in force for a further period not exceeding one year.

(3) Persons holding restricted certificates granted by Local Governments before the commencement of this Act entitling them to act as auditors within a province may continue so to act, on such conditions as may be prescribed by the Governor General in Council in rules made by notification in the *Gazette of India* and after previous publication.

STATEMENT OF OBJECTS AND REASONS.

One of the main objects in passing the Indian Companies Act, 1913, was to ensure that the accounts of companies are properly audited, and section 144 of the Act deals with the appointment and qualification of auditors. Under sub-sections (1) and (2) of this section, the Local Government is the statutory authority for the grant of certificates to persons entitling them to act as auditors of public companies and to make rules providing for the grant of such certificates. The proviso to sub section (1) also empowers the Governor General in Council to declare that the members of specified institutions or associations shall be entitled to be appointed and to act as auditors of companies throughout British India.

The existing arrangements were not intended to be more than temporary and transitional. It is doubtful whether the provisions of section 144 of the Indian Companies Act are in consonance with the classification of subjects under the existing constitution, and it is considered to be desirable that definite steps should now be taken to prepare a way for advance towards the ideal system of an autonomous association of accountants able to assume complete responsibility for the maintenance of the requisite standard of professional qualification, discipline and conduct of its members. Further, during the last few years a large increase has taken place not only in the number of joint stock companies in India, but also in the range of their activities, which frequently extend beyond the limits of a single province. Not only, therefore, is a high standard of professional qualification necessary but it is also necessary that this standard should be uniform throughout the country. With these objects in view the Government of India have caused the whole position to be re examined and have prepared a comprehensive scheme, in consultation with Local Governments and commercial and other bodies interested. This scheme proposes to transfer the power to grant auditors' certificates and to make rules for the grant of such certificates from the Local Government to the Governor General in Council, and provides for the appointment of an Indian Accountancy Board, consisting of persons representing the interests principally affected or having special knowledge of accountancy, to advise the Governor General in Council on all matters concerning the grant of auditors' certificates and to assist him in maintaining the standards of qualification and conduct required of auditors. It also provides for the appointment of local accountancy boards at important centres for the purpose of advising the Indian Accountancy Board and the Governor General in Council on any matters that may be referred to them.

The object of the Bill is to take the necessary power to give effect to this scheme. The more important changes which it is proposed to make in the law are :—

(1) the substitution in section 144 of the Governor General in Council for the Local Government as the statutory authority for granting auditors' certificates and for making rules for the grant of such certificates ; and

(2) the abolition of the power to allow members of specified societies to act as auditors without certificates.

"134 | BANGLES, beads and false pearls."

19. In Item No. 136, after the word "manufactured", the words "not otherwise specified" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to certain minor amendments which it is proposed to make in Schedule II to the Indian Tariff Act, 1894 (VIII of 1894). The more important proposals in the Bill are dealt with *seriatim* below. They are included in a separate Bill instead of in the Finance Bill, because they have not been made primarily with reference to the revenues of 1930-31.

1. *Barks for tanning.*—It is proposed to abolish the 15 per cent duty on these barks, which are now included in Item No. 22, on the grounds that they are raw material of an important industry; that it is more economical to use wattle bark, which forms the bulk of the imported barks, than other tanning materials available in India; and that they are cheap and bulky and are entirely destroyed in the process of tanning hides and skins.

2. *Plants, living.*—In pursuance of a recommendation of the Royal Commission on Agriculture, living plants, which were liable to a duty of 15 per cent, have been exempted from duty by a notification under section 23 of the Sea Customs Act. It is now proposed to place this exemption on a statutory basis.

3. *Arms.*—Under the exception to the Second Schedule to the Arms Act of 1878 read with section 8 thereof, the appendages mentioned in this item were liable to the same duty as was leviable on firearms under Item 2 of the Tariff Act of 1875. The Tariff Act of 1875 was replaced by the Tariff Act of 1882 which took away from the Arms Act the Second Schedule and the exception thereto. The effect of this was to exempt these parts and accessories from duty altogether. This unintentional exemption has been continued in successive Acts though these spare parts are rarely imported in the same case with a firearm. It is now proposed to omit Item No. 12 (a) altogether.

4. *Poultry Farming Appliances—Incubators.*—It is proposed to amend the heading of item 16 so as to enable poultry farming appliances to be treated in the same way as dairy appliances and to remove the import duty of 15 per cent on incubators by adding them to the list of appliances specified under that item as so amended. A consequential amendment is also proposed in the item.

5. *Pans for boiling sugarcane juice; sugar centrifugal and gur-mills and parts thereof.*—It is proposed to place these on the free list under Item No. 16 of the Import Tariff. This and the amendments referred to in Item 4 are proposed in accordance with the recommendation contained in paragraph 110 of the Agricultural Commission's Report.

6. *Saccharine (except in tablets) and similar substances.*—Saccharine (except in tablets) is now liable to a specific duty of Rs. 5 per pound under Item No. 34A of the Import Tariff. It is now proposed to add to this item other substances of a like nature or use to saccharine so as to bring under it substances from which saccharine can readily be made, but which are at present subject to lower duties.

7. *Wireless apparatus.*—By a notification under section 23 of the Sea Customs Act, the import duty leviable on apparatus for wireless telegraphs designed either for transmission or reception whether by telegraphy or telephony, including their component parts, has been reduced to 2½ per cent. It is now proposed to incorporate the exemption in the statutory tariff.

8. *Insulated copper cables containing pilot wires of a sectional area of less than one-eightieth part of a square inch.*—These cables are liable to a duty of 15 per cent *ad valorem* under Item 90A of the Import Tariff. By a notification under section 23 of the Sea Customs Act, however,

they have been exempted from so much of this duty as is in excess of the duty (if any) to which they would have been liable if they had had no core of a sectional area of less than 1/80th part of a square inch. The effect of this exemption is to make them free, if they are insulated otherwise than by rubber (*vide* Item 18A (5)) and to make them subject to a duty of 5 per cent *ad valorem*, if they are insulated by rubber (*vide* Item 43B).

The reason for making the exemption is that the pilot cores only perform a subsidiary function and that it is the size of the power cores that should determine the question whether the cables should be assessed to duty under Item 90A or should enjoy privileged treatment under item 18A (5) or 43B. It is now proposed to place the exemption on a statutory basis.

9. *Domestic refrigerators.*—Certain kinds of refrigerators are operated by machines requiring more than ½ brake horse power and are therefore free under Item No 18A, while other competing types which are not so operated are assessed to duty under item No. 90. It has been represented that this manner of assessment gives undue advantage to one type of refrigerators over the others. An Item 18A was intended to encourage the importation of machinery representing fixed capital employed in productive industries and household refrigerators do not fulfil this condition, it is proposed to insert a new item (90B) so as to make all domestic refrigerators, without regard to the mode of operation, liable to duty at the general rate of 15 per cent *ad valorem*.

10. *Bangles, beads and false pearls.*—It is considered that these articles, whatever the material of which they are made, should be treated alike and be subject to a duty of 33 per cent *ad valorem*. It is accordingly proposed to omit Item No. 131 and the heading thereto and to insert a new item under the heading "Miscellaneous" in the same part, namely, "Bangles, beads and false pearls".

11. The amendments are intended to come into effect from the seventh day after the Bill becomes law.

The following Bill was introduced in the Legislative Assembly on the 12th February 1930:—

I.A. BILL No. 8 OF 1930.

A Bill to amend the law relating to the fostering and development of the steel industry in British India for certain purposes.

WHEREAS it is expedient to amend the law relating to the fostering and development of the steel industry in British India for the purposes hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Steel Industry (Protection) Act, 1930.

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

Amendment of Second Schedule to Act VIII of 1894.

VIII of 1894.

2. In the Second Schedule to the Indian Tariff Act, 1894, there shall be made the amendments specified in the Schedule to this Act.

THE SCHEDULE.

(*See section 2.*)

AMENDMENTS TO THE SECOND SCHEDULE TO THE INDIAN TARIFF ACT, 1894.

1. In item No. 61, in the fifth sub item (relating to IRON OR STEEL railway track material not otherwise specified), after the words "fastenings thereto", the words "other than tie-bars" shall be inserted.

2. In item No. 62, in the fifth sub item (relating to STEEL, bar and rod), in part (a) thereof—

(a) for the entry "(*i*) rounds under ½ inch diameter", the entry "(*i*) rounds not over 7/16 inch diameter" shall be substituted ; and

(*b*) for the entry "(*ii*) squares under ½ inch side" the entry "(*ii*) squares not over 7/16 inch side" shall be substituted.

3. In item No 150—

(*a*) in part (*a*) of sub-item A, entry (*iii*) relating to spikes and tie-bars shall be omitted ;

(*b*) in part (*b*) of sub-item A, the words "spikes and tie-bars" shall be omitted ; and

(*c*) the following sub item shall be added, namely :—

"D Spikes and tie-bars—

(*i*) British manufacture Re 26 per ton.
(*ii*) not of British manufacture Rs. 37 per ton

STATEMENT OF OBJECTS AND REASONS.

Under item No. 162 of the Tariff Schedule read with item No. 62 (*a*) (*i*) and (*ii*) thereof, round and square bars and rods of sizes ½ inch and above are liable to a protective duty of Re. 26 or 37 per ton, according as they are of British manufacture or not. It has been represented to Government that steel bars of sizes of 15/32 inch and 31/64 inch, manufactured to special orders for use in substitution for ½ inch bars, are being imported with the object of evading the protective duty leviable on ½ inch bars. Statistics specially maintained to watch the imports of bars and rods show that the importations of these special sizes are increasing. As there is no stock size intermediate between ½ inch and 7/16 inch, it is evident that the object of these importations is as stated above and that as far as ½ inch bars and rods are concerned the intention of the Steel Industry (Protection) Act, 1927, is being defeated to a considerable extent. It is accordingly proposed to bring all steel bar and rod over 7/16 inch under the protective duty so as to make the protection granted to ½ inch bars fully effective. Item 2 of the Schedule to the Bill provides for this.

2. The Tariff Board, in paragraph 152 of their Report regarding the continuance of protection to the steel industry recommended that spikes and tie bars should be subject to the same protective duties as bars so that the basic duty would be Re 26 per ton and the additional duty Re. 11 per ton. Item No. 150 of the Indian Tariff Act which was inserted by the Steel Industry (Protection) Act, 1927, was intended to give effect to this recommendation. It has been held, however, that the wording of the entry does not in fact carry out the intention, and that tie-bars for cast iron sleepers are not subject to the protective duty leviable thereunder, but are assessable at 10 per

cent *ad valorem* as "fastenings" for such sleepers under item No. 61. Items 1 and 3 of the Schedule to the Bill accordingly amend items Nos. 61 and 150 of the Import Tariff, so as to give full effect to the scheme of protection adopted by the Legislature.

NEW DELHI,
6th February 1930.

G. RAINY.

We, the undersigned, Members of the Select Committee to which the Bill to reserve the coastal traffic of India to Indian vessels was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Papers Nos. 1—17.

Clause 2.—An amendment has been made in sub-clause (*c*) consequential on the definition of "coastal traffic" in clause 2.

A proviso containing a suspending clause is necessitated by the provisions of section 73d (*a*) of the Merchant Shipping Act, 1894 (57 and 58 Vict., *c.* 60).

Clause 3.—The definition of "coastal traffic" excludes Aden and Perim and ports in Indian States. It further exempts from the provisions of the Act the carriage of passengers with through tickets and of cargo on a through bill of lading to or from ports outside British India; also of mails and pilots in certain cases. These provisions are similar to those of section 7 of the Australian Navigation Act, 1912—1920. It was also decided to exempt the carriage of oil in bulk by oil-tankers as a class of ships entitled to special consideration.

We have considered it desirable to place Rulers and subjects of Indian States in the same position as Indian British subjects for all purposes.

Definitions (*c*) and (*j*) in the Bill as introduced have been consolidated in the definition of "Indian-controlled ship". We consider it desirable in the case of a corporation, partnership or association to prescribe a percentage of the right to profits as well as to capital and to provide that companies must be both incorporated and registered in British India in order to render control effective. We have also required that the Managing Director and Managing Agent, if any, should be Indians. We further decided to include ships chartered by Government in the category of Indian-controlled ships.

We were impressed with the desirability of precluding evasions of the Act by *benamidars* but decided that the imposition of penalties or disabilities on persons holding ships *benami* for non-Indians or on the non-Indian beneficiaries would involve very great complications. We have, therefore, decided to make no provision on these lines, but desire to record our recommendation that if, when the Act is in operation, devices of this kind are employed with success on a large scale, counteracting measures should be taken.

Sub-clauses (*d*), (*h*) and (*i*) introduce purely formal amendments.

Clause 5.—The retention of the expression "common carrier", which appeared in the Bill as introduced, might have defeated the object of the Bill. This expression is limited to persons who are bounded to carry for the public, and shipping companies might

have taken the opportunity to protest themselves against the operation of the Act by a declaration that they would not carry in certain circumstances. We have avoided this difficulty by the use of the word "ship".

Clause 4.—We have thought it desirable to obviate the difficulty which might arise if the total Indian controlled tonnage applying for licenses is inadequate to the needs of the coastal traffic by providing that the Governor General in Council shall in each year after consulting the public the total tonnage which ought to be licensed and retain a power [given by the proviso to clause 7 (3)] in such cases to make up the desired total by licensing ships other than Indian controlled ships.

Clause 5.—In view of the provision which we have made in clause 9 for penalties, it is essential to require a definite form of application for licences containing a signed declaration as to whether a ship is or is not Indian controlled, together with relevant particulars.

Clause 6.—In this clause we have combined clauses 4, 5, 6, 7 and 8 of the Bill as introduced. The yearly variations of tonnage provided by clause 7 necessitate the alteration of the period of validity of a license from three years to one year. We think that it is unnecessary to provide for renewal of licences.

Clause 7.—This clause reproduces substantially the provisions of clause 9 of the Bill as introduced with the following modifications:—

(i) We consider it essential that all *bona fide* Indian-controlled vessels applying for licences in the first year should obtain them, especially in view of the fact that the number of such ships would not be excessive.

(ii) In order to prevent any rush to obtain qualification by exchange of shares, etc., at the last moment before application we have provided that, for the first year, only ships which were Indian-controlled on a fixed date to be inserted in the Bill should participate in the privileges conferred. This date should be as nearly as possible the date on which the Bill finally passes through both Chambers of the Indian Legislature.

(iii) As explained with reference to clause 4, provision has been made for the licensing in each year of the total tonnage considered necessary for the needs of the coastal traffic by licensing ships other than Indian-controlled ships if the latter do not apply in adequate numbers.

Clause 8.—We were of opinion that a clause of this nature, based on clause 246 of the Australian Act, is necessary to meet temporarily the emergency of a sudden rush of traffic or failure of shipping between ports.

Clause 9.—We considered it desirable to particularise the offences and classes of offenders generally envisaged by clause 10 of the Bill as introduced. The penalty provided in (a) for the master of a ship is designed to provide an indirect means of control over persons not otherwise amenable to the municipal law of British India. Sub-clause (2) was added to meet the case of an offending company or firm.

Clause 10.—To the provisions of clauses 11 and 12 of the Bill as introduced we have added a power to cancel licences in respect of

which a false statement or declaration has been made in an application and have made provision for forfeiture of security.

Clause 11.—We have inserted a general rule-making power subject to the rules being laid in draft before both Chambers of the Indian Legislature, and to any Resolution passed by either Chamber with regard to the draft within a fixed period being taken into consideration by the Governor General in Council before the rules are finally made.

We have inserted a special reference to rules prescribing the conditions under which licensed ships may be chartered. We desire to place upon record our recommendation that these conditions should prohibit a charter of the "bare boat" or any other form which transfers the control, management or running of a ship from an owner who satisfies the conditions contained in sub clause (*a*) or (*b*) of clause (*3*) of section 2 to a charterer who does not satisfy the conditions contained in one or the other of those sub-clauses.

Clause 13.—This clause which follows section 4 of the Indian Merchant Shipping Act, 1923, exempts public ships from the operation of the Act.

Clause 15.—It was considered desirable to make it clear that the holder of a licence is in no wise exempted thereby from the requirements of the Indian Merchant Shipping Act, 1923, relating to certificates, etc.

MINUTES OF DISSENT.

We have signed the report with the other members of the Select Committee purely as in duty bound.

We entirely dissent from the discriminatory principle underlying the Bill which is such as renders it impossible for us to put forward any alternative proposals.

We refrain from comment upon any clause with the exception of No. 4 which, we are convinced, is thoroughly unpractical. To our mind, in operation it will undoubtedly cause serious difficulties to arise. Apart from the onus placed upon the Governor General in Council or upon any Government Department, the clash of opinions as to the estimate of tonnage essential to the needs of the coastal traffic in any year, is bound to lead to conflicting views causing delays and a general state of muddle, resulting, probably, in dislocation of the traffic and serious loss to those who are dependent upon coastal shipping

The clause is objectionable to us also because it connotes Government control, rules, regulations and interference. Experience all over the world of late years has eloquently shown that the less Governments interfere with trade and commerce, the better for all concerned.

Concerning the Bill as a whole, as Burma is interested in 75 per cent both of coastal cargo and passenger trade, the danger threatening the province, if the Bill becomes law, is too great to be contemplated without misgiving.

JAS. F. SIMPSON,
W. STENHOUSE LAMB.

The 20th March 1929.

* Subject to minute of dissent.

I consider that many of the amendments made in the Bill by the Select Committee are improvements, and that the Bill is now a much more workable and practical measure than it was at the time of its introduction. But, in my view, the Bill is open to the gravest objections in principle, and these objections have not been in any way removed, or even diminished, by the amendments made in Select Committee. I object altogether to discrimination between the citizens of the various parts of the British Empire in respect of the coastal traffic of India, and I object to the expropriation involved in that provision in the Bill which seeks to reserve completely the coastal traffic for Indian-controlled vessels at the end of five years from the date when the Bill becomes law. In these two respects the Bill has not been materially altered and I am unable to support it.

2. In the following points of detail the provisions of the Bill, as amended by the Select Committee, seem to me to be open to criticism:—

(1) Sub-clause 2 (3) (b) (i) provides that 75 per cent of the shares or stock of a Company must be vested in Indians, if the ships owned by the Company are to be Indian-controlled ships. There would, I apprehend, be great difficulty in practice in establishing the fact that a breach of this condition had occurred.

(2) Clause 4 imposes on the Governor General in Council the duty of determining annually the total tonnage which is essential for the needs of the coastal traffic. I am not satisfied that this could be done with sufficient accuracy to prevent grave inconvenience to trade if the quantity required was under estimated, or the partial frustration of the objects of the Bill if it was over estimated.

G. RAINY

The 22nd March 1929.

[AS AMENDED BY THE SELECT COMMITTEE]

[Words printed in italics indicate the amendments suggested by the Committee.]

Provided that no licence shall be so cancelled unless the holder thereof has been given an opportunity to show cause against the cancellation or has been convicted of an offence under clause (b) or clause (c) of sub-section (1) of section 9 in respect thereof.

(2) Where any licence is cancelled under this section in consequence of a breach of the conditions thereof, the Governor General in Council may direct that any security which has been given under sub-section (3) of section 6 for compliance with such conditions shall be forfeited either in whole or in part.

Power to make rules.

11. (1) The Governor General in Council may, by notification, make rules for carrying out the purposes of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely :—

(a) the form of licences ;

(b) the conditions of licences, including the conditions under which a licensed ship may be chartered ;

(c) the manner and form in which application for licences shall be made ;

(d) the particulars to be contained in applications for licences ; and

The bond shall be stamped and registered at the expense of the purchaser.

7. On the failure of the approved tenderer to make deposit under clause 5 supra or to comply with the requisitions under clause 6 supra as to execute the necessary agreement, the deposits already made, may be forfeited and the farm resold or otherwise disposed of under the orders of the Executive Engineer and the purchaser has no right to collect any toll from the date of the Executive Engineer's orders. Resales effected under clause 4 will be at the risk of the defaulting tenderer who will forfeit all gain and in the event of a loss will be required to make good the deficiency between the toll amount payable for the whole period under the terms of the original sale and the total amount payable by the successful tenderer at the resale. In the latter case, the forfeited deposits will be deducted from the loss arising from the resale and the remainder, if any, will be recoverable from the defaulter. Should the forfeited deposits be greater than the loss by the resale, the whole of such deposits will be credited to the Public Works Department. The defaulting tenderer will be similarly liable, if the privilege is disposed of otherwise than by resale and such disposal results in loss to the Public Works Department as compared with the original sale.

8. The deposits referred to in clause 4 or in clause 5 supra, as the case may be, will be held as security for the due performance of the conditions of the lease and will be credited to the last instalment of the rent.

9. The successful tenderer should construct at his own cost the necessary sheds at the place which will be specified by the Subdivisional Officer, Pollachi, for carrying business in connexion with the toll collections and remove them at his cost when his lease expires, when the amount deposited by him in paragraph 1 above will be refunded.

TENDER FOR QUARRYING AND SUPPLYING MATERIALS FROM MOGALRAJAPURAM QUARRY FOR 1930-31.

1. Sealed tenders will be received by the undersigned at his office up to 3 p.m. on the 14th March 1930 for quarrying and supplying materials from the Mogalrajapuram quarry for 1930-31.

2. Tenders should be addressed to the Executive Engineer, Kistna Central Division, and should be superscribed "Tender for quarrying and supply of materials from the Mogalrajapuram quarry for 1930-31."

3. Each tender should be accompanied by the earnest money of Rs 200 in cash or currency notes which will be returned to the tenderers whose tenders are not accepted.

4. The Executive Engineer will reserve to himself the right of rejecting all or any of the tenders without assigning any reasons for so doing.

5. As soon as the acceptance of the tender is notified the earnest money from the successful tenderer will be held as part security for the due fulfilment of the contract. The contractor must deposit within three days of notification to do so a further sum of Rs. 200 which with the earnest money received will be held as security for the due fulfilment of the contract.

6. The successful tenderer will be required to execute an agreement in Form K-2 for the due fulfilment of the contract.

7. Failure to comply with conditions 5 and 6 above will entail forfeiture of the earnest money.

8. The contract must not be sublet.

9. Tenders must be signed by one man only. Joint signatures will not be accepted. In the case of a firm the tender must be signed by each member thereof or in the absence of any partner, on his behalf by a person holding a power of attorney authorizing him to do so. The address of the tenderer should be given in full.

10. The conditions of the tender will be as follows :—

(*a*) The tender will hold good for supply up to 31st March 1931.

(*b*) All materials required by the Public Works Department should be supplied as per specification that will be attached to the agreement, without delay, for the rate tendered in the schedule. Twelve and a half per cent deduction will be made for voids in broken stone, rough stone and jeddy stone for close stacking. If the voids are greater the percentage of deduction will be increased at the discretion of the Executive Engineer, Kistna Central Division, or his representative. All metal heaps shall be 2 feet 3 inches high, 3 feet wide at top, 7 feet at base and of length a multiple of 10 feet. The height shall however be measured as 2 feet allowing one-eighth for voids. Where stacking is done on posts and the above procedure cannot be followed, instructions of the Junior Superintendent, Workshops, should be taken on size of heaps to be formed for measurements.

(*c*) Materials must be delivered, loaded and stacked on the posts or cargo boats within 24 hours after the arrival of the boats at the canal bank or Mogalrajapuram wharf. Failing this, a fine will be imposed equal to the tonnage rates paid to the conveyance contractor for every 24 hours delay or fraction thereof.

(*d*) The tenderer must bind himself to work the quarry to the satisfaction of the Executive Engineer, Kistna Central Division, or of any other officer deputed by him.

(*e*) The contractor must not make private sales of quarry materials. The existing tramway plant consisting of about 7 furlongs of double line of tramway should always be maintained in good working order and all repairs must be attended to by the contractor himself. Any damage caused by the contractor or his men to the tram rails or trucks should be made good by the contractor at his cost and the contractor is personally held responsible for tramway plant left in his charge and if anything is found deficit at any time the cost of the same will be recovered from the contractor at the stock rates with centage at 10 per cent or the local market rate, whichever is higher. The tramway and trucks will be examined by the Public Works Department once a month or as found convenient and all repairs found necessary and replacement of shortages (fish plates, frames, bearings, etc.), will be executed and recovered in full from the contractor. The only exception will be in the case of patching to bodies, which will be done departmentally unless the Executive Engineer decides the damage is due to negligent use, in which case it will be recovered from the contractor. The same procedure will apply at the close of the season's work when the plant must be handed back by the contractor in proper working condition as received. The contractor must at his own expense maintain establishment for greasing trucks and maintaining tramway and trucks and watching them accordingly. There will be no appeal from the assessment of damages made by the Executive Engineer, on the above basis.

The contractor must therefore tender his conveyance rates on the above basis and in his tender state he has tendered with full knowledge of this addendum.

(*f*) The quarry should be kept clear of rubbish and handed back so cleared at the termination of the agreement or at the time defined in the succeeding clause. The contractor has no lease on the quarry but he is permitted to occupy it only for supplying Government materials. The frontage of the quarry available for the contractor to work will be intimated to him and refused as necessary during the season by the Executive Engineer.

(*g*) The contractor must stack any materials quarried and lying in the quarry required by the Public Works Department within ten days of written notice to vacate the Public Works Department quarry and shall not be entitled to remove any materials or receive any compensation whatever for any materials not required by the Public Works Department or not taken over by the Public Works Department within the aforesaid period nor is he entitled to any compensation for any other loss he may sustain from whatever cause arising by reason of order to vacate the quarry. This agreement will automatically be terminated by such order to vacate the quarry.

(*h*) The contractor will be paid every month on the accepted measurements at the unloading station.

(*i*) The contractor must supply and load on punts or cargo boats not less than 25 units of quarry materials per day, if the indents placed on him permit this and if there are punts or cargo boats at Mogalrajapuram wharf capable of conveying this quantity. The penalty for such failure will be defined in the agreement entered into with the contractor.
